

Kate Patterson – A changing career

What was Kate's career progression? What job did she start at and where has she ended up?

What are the key digital skills that Kate uses in her new job?

Consider another non-traditional STEM career such as teaching, medicine, art, or a trade such as plumbing or carpentry. Describe *at least three* ways in which that career could be changed into a digital career in the

Exploring Careers and Career Change

In the space below brainstorm 10 different careers or jobs you might be interested in:

Ten Interesting Careers	

Number the top three you are interested in

- 1.
- 2.
- 3.

What are the key, or most important skills that someone would need to perform those jobs well? (Clear and effective communication, specialised knowledge, public speaking, digital skills etc.)

Choose one of those careers and in the space below, brainstorm some of the ways in which *technology* could change that career in the future – *be creative! Think big!*

What new skills would someone have to learn or adapt to be successful if those changes occurred?
